

Run Better Golf Games – With Less Friction

A mobile-friendly game administration system built for golf game organizers and their players.

Running a golf game should not require spreadsheets, text chains, paper scorecards, and manual calculations.

MatchAid helps golf game organizers manage the full game workflow — from signup to scoring — in one organized system. Players get a simple mobile experience to join games, view pairings and tee times, enter scores, and follow results.

Built for the Person Who Runs the Game

Whether you manage a weekly member game, a standing golf group, a weekend skins game, or a larger organized event, MatchAid gives you the tools to keep everything moving.

Game organizers can:

- ✓ Create and manage games
- ✓ Build player rosters
- ✓ Add players from favorites or GHIN lookup
- ✓ Assign tees
- ✓ Create pairings and groups
- ✓ Set tee times or starting holes

Simple for Players

Players do not need a complicated app experience. They need to know where they are playing, who they are playing with, when they tee off, and how the game stands.

Players can:

- ✓ Find and join games from their phone
- ✓ View game details, pairings, tee times, and starting holes
- ✓ Enter scores during play
- ✓ Follow scorecards, skins, leaderboards, and results
- ✓ Stay connected to the game without constant texts or manual updates

Instead of:
