I. Overview

Run Better Golf Games — With Less Friction

A mobile-friendly game administration system built for golf game organizers and their players.

Running a golf game should not require spreadsheets, text chains, paper scorecards, and manual calculations.

MatchAid helps golf game organizers manage the full game workflow — from signup to scoring — in one organized system. Players get a simple mobile experience to join games, view pairings and tee times, enter scores, and follow results.

Built for the Person Who Runs the Game

Whether you manage a weekly member game, a standing golf group, a weekend skins game, or a larger organized event, MatchAid gives you the tools to keep everything moving.

Game organizers can:

- ✓ Create and manage games
- ✓ Build player rosters
- ✓ Add players from favorites or GHIN lookup
- ✓ Assign tees
- ✓ Create pairings and groups
- ✓ Set tee times or starting holes
- ✓ Generate scorecards
- ✓ Track scoring, skins, leaderboards, and results

Simple for Players

Players do not need a complicated app experience. They need to know where they are playing, who they are playing with, when they tee off, and how the game stands.

Players can:

- ✓ Find and join games from their phone
- ✓ View game details, pairings, tee times, and starting holes
- ✓ Enter scores during play
- ✓ Follow scorecards, skins, leaderboards, and results
- ✓ Stay connected to the game without constant texts or manual updates

Less Admin Work. Better Game Experience.

MatchAid replaces scattered tools with one connected workflow.

Instead of:

- ✗ Spreadsheet rosters
- ✗ Text-message signups
- ✗ Manual pairings
- ✗ Paper scorecards
- ✗ Hand-calculated results
- ✗ Post-round confusion

MatchAid gives organizers and players:

- ✓ A cleaner way to manage the game
- ✓ A better mobile experience
- ✓ Faster setup and scoring
- ✓ More organized communication
- ✓ Clear results everyone can follow

Start With One Game

- ✓ You do not need to change how every golf group operates overnight.
- ✓ Start with one game.
- ✓ Invite your regular players.
- ✓ Run it with MatchAid.

Organized golf games. Less manual work. Better player experience.

V. MatchAid Club Professional Portal

Overview

MatchAid

Greater Visibility. Better Planning. Better **Member Service.**

Organized member games take shape before the official reservation window opens. MatchAid provides club professional staff with earlier visibility into member play requests, helping the golf operations team plan course and tee-time capacity sooner and serve members more effectively.

Earlier Demand Visibility

See organized member-game demand forming before it reaches the tee sheet.

Better Capacity Planning

Plan course and tee-time needs with a clearer view of expected participation.

Smarter Release Decisions

Identify soft, full, or overfilled games before release deadlines create pressure.

Stronger Member Experience

Support organized games with clearer expectations and smoother communication.

Reduced Operational Churn

Minimize last-minute adjustments and uncertainty around organized games.

The Difference Earlier Visibility Makes

CURRENT PROCESS

Short Planning Window

BEFORE DAY 6

Member requests for play are forming across disconnected channels. Club professional staff have limited visibility into this demand.

DAYS 6–4

Tee-time blocks are requested while rosters are still taking shape. The club wants early release, but the demand signal is too fragmented to support it confidently.

DAY 3

The block is released, but the opportunity may be gone. Members who wanted that time may have already booked elsewhere or changed plans, making opened tee times harder to reuse.

GAME DAY

Final setup may shift late. Pairings, player communication, and scorecard preparation can continue changing close to play.

WITH MATCHAID

Earlier Visibility. Earlier Release.

BEFORE DAY 6

Member play requests are captured in one place as they form. Club professional staff gain earlier visibility into expected demand before the reservation window opens.

DAY 6

Final preparations are based on a clearer demand picture. Game organizers and club staff can align expected player counts with tee-time block needs.

DAY 5

Unused tee times can be released earlier. Earlier release gives other members more opportunity to use those times.

GAME DAY

Final setup is more stable and predictable. Pairings, player communication, and scorecards are ready with fewer late changes.

THE RESULT

Greater visibility into member-game demand

Better Day-6 planning conversations

Earlier release of unused tee times

More opportunity to repurpose capacity

Smoother game-day execution and better member experience

Organized golf games. Less manual work. Better player experience.
